Torque Reaction systems and Posi-Control systems

TOOLimpex
CZECH REPUBLIC s.r.o.

The range

TORQUE REACTION ARMS (p.4 to 41)

A comprehensive range of torque reaction systems to decrease employee injuries and boost productivity.

POSI CONTROL SYSTEM (p.42 to 56)

Error proofing and sequence control for zero-fault assembly processes. Management of automation devices on the assembly line.

Linear Arms

BA Series

BA Series : Smooth tightening operation and perfect perpendicularity until 100 Nm.

- Erase torque reaction
- Ensure perfect perpendicularity
- Avoid illnesses
- Suppress the tiredness
- Improve the tightening quality
- Reduce the absenteeism rate
- Improve productivity

BA 5/12/25/40/100

BA 200/400/1000

Model	Torque max (Nm)	Tool Ø (mm)	Stroke	Load max (kg)	Code

Downward Assistance Kits

Downward Assistance Kits will provide you with Extreme Comfort and productivity increase. Ideal for self-tapping applications it requires no effort from the operator. BAPER system features a built-in collect chuck that allows the system to be used at any height. Easy Push system operates only at a preset height by using a mechanical stop that is set along the pole.

EASY PUSH

Model	For	Pushing force (Kg)	Stroke (mm)	Type	Code
EASY PUSH	BA 12	5	125	Pneumatic	4-5200099

BAPER	BA 25	8	-	4-5200831
BAPER	BA 40 & 100	8	-	4-5200832
BAPER cable/GX (2 m) to use with U3D interface*				4-5200833
*U3-D interface for GX screwdrivers				4-1041888
BAPER cable/GY (24 V power supply) (2 m)				4-5200882
MD cable (1 m)				4-5210010
BAPER cable/DELVO (2 m)				4-5200834
Cable without connector (3 m)				4-5200835

Electric BAPER kits are delivered without cable.

Safety kit

For	Code
BA 12 & 25	4-5200134
BA 40 & 100	4-5200135

The safety kit allows to avoid activation of downward assistance before powerbit gets in contact with the screw.

Linear arms

BA 5 to 100 Dimensions

BA Dimensions

Model	Stroke A	Min	B	Max	C	D	E	F
BA 5	200	235		315	705	65	8,5	78

Articulated reaction arms

BA...R Series

BA...R Series are equipped with a rotating articulation enabling a high working flexibility. Swivelling and folding up like a human arm, they are recommended for spaceless working places.

- Optimum ratio performance/dimensions (ideal for spaceless location)
- Economical and versatile : possibility to use on the same arm every kind of tools (straight, pistol, angle drivers) thanks to the large choice of clamps.
- Higher comfort for the operator thanks to the articulated arm (less movement inertia and better positioning accuracy).

Model	Max torque (Nm)	Tool Ø (mm)	Max load (kg)	Max radius (mm)	Code

Carbon telescoping arms

DMF/DMFI Series

DMF Series : Erase your torque reaction until 300 Nm.

- **Comfort** : Easy to install on moving assembly line (mountable on existing standard rail). Require little space and doesn't disrupt flow production. Erase torque reaction of power tools.
- **Economy** : Maintenance free thanks to the carbon fiber (no greasing). Long last of living thanks to the durable carbon fiber.
- **Productivity** : Easy and quick operator handling thanks to the light weight carbon fiber.

Slider

SLIDER Series : Erase your torque reaction until 300 Nm.

- IMPROVE YOUR COMFORT AND PRODUCTIVITY

Easy to install and smart-sized the SLIDER arms improve the comfort of the operator and the productivity clearing the work area.

- IMPROVE YOUR ERGONOMY

Mounted with horizontal stroke the SLIDER becomes the ideal ergonomical solution on conveyor line.

Position control system

Improve your manufacturing quality with zero fault process. DOGA Posi Control system is the ideal Sequencing, Error proofing and positioning unit. Compatible with your air, electric and DC tools, your assembly process remains under control regardless operator's qualification.

DPC-Touch Controller V2

POSI-CONTROL System

Position control

Linear arms BA...PC series

Articulated arms BA...RPC series

- Zero fault process
- Error proofing
- Sequencing
- Suitable with air and electric tools
- Automation device management

Telescoping arms DMF...PC series

Suspended arms Slider BA...RPC series

POSI-CONTROL System

- Open job structure allows set up of customized logical sequences of fastenings, messages and I/O's.

- More than a sequencing and Poka-Yoke controller the DPC Touch may easily manage the automation devices of your workstation on assembly line.

POSI-CONTROL DPC-Touch

Powerful - user friendly - versatile

• TECHNICAL FEATURES :

Dimensions : 202 x 127 x 38 mm

Weight : 550 gr

I/O's : 12 inputs, 12 outputs, 24 Volts

LCD screen : 7" touch screen (800 x 480 m/m)

Encoders : until 4 encoders, (0 - 5 V)

Power supply

Port Ethernet
(Modbus)

2 ports for low
voltage DOGA
screwdrivers

12 inputs/12 outputs
(assignable)

Encoders port

RS232 port (firmware upgrade
and bar code reading/Job
selection)

• Fast and powerful :

- In house operating system
- Until 255 programable jobs !
- Until 80 steps per jobs !
- Until 50 positions per step !
- Until 4 position encoders

• User friendly :

- Embedded soft
- Touch screen
- Self teaching sequencing
- Smart tolerance detection
- Process and sequencing visualization - operator instructions guidance

• Versatile :

- Suitable with all DC Tools - low voltage and air tools
- Poka-Yoke or/and sequencing controller
- Assignable I/O's
- Suitable with screwfeeders pick up
- Opened job structure enables customized logical sequences
- Management of your automation devices
- Dynamic display of fastening position and simple programming
- Offline creation and modification of the jobs

Carbon telescoping arms

DMF...PC Series

- Torque up to 300 Nm
- Equipped with absolute angle encoders 12 bits (0,1°)

 Monitored movement

DMF LAPC

To monitor the angle and the length of the arm.

DMF LPC

To monitor the length of the arm.

DMF AAPC

To monitor the inclination (angle) of the arm in both directions.

Carbon telescoping arms
